## **DETAILED ACTION**

Applicants' response of 9/29/2004 has been entered. Claims 1-18 have been cancelled. Claims 19-28 have been added.

Newly submitted claims 19-28 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The claims as originally presented required a showerhead diffuser comprising two channel regions having plural independent concentric channels, a transition region and an interface. The present claims are drawn to a process gas diffuser with *three gas diffusion stages*. The new Claims are directed to an invention that is independent or distinct, as the process gas diffuser with the three diffusion stages is materially different from the one required by the original claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 19-28 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
